

p. 335 #18, 20, 21, 22, 25, 36, 39, 40, 70, 71

22) synth/combination, decomp., SR, DR, combustion

25) a) DR, 2 compounds

b) decomposition, 2 elements

c) synth/combination, 1 compound

d) combustion, $\text{CO}_2 + \text{H}_2\text{O}$

36) a) \textcircled{R} Sodium + water \textcircled{P} Hydrogen and Sodium hydroxide

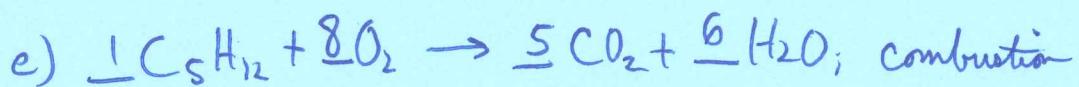

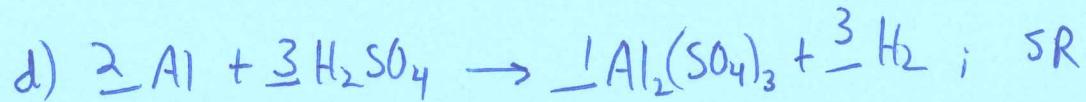

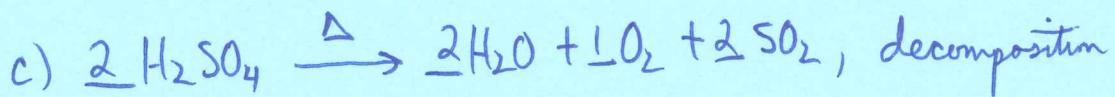

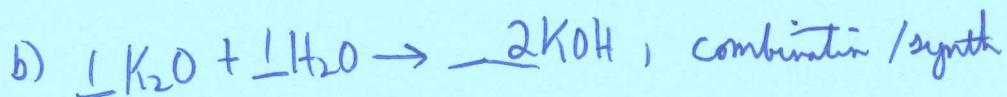

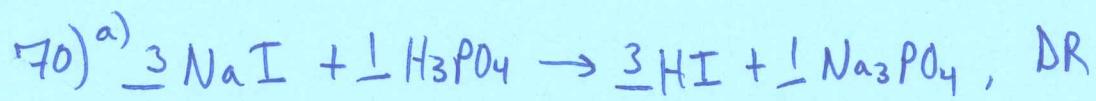

b) \textcircled{R} $\text{CO}_2 + \text{H}_2\text{O}$ \textcircled{P} Oxygen and glucose

39) a) Ammonium gas reacts with Oxygen gas in the presence of a Platinum catalyst to form Nitrogen monoxide gas and water vapor

b) Aqueous solution of Sulfuric acid and Barium Chloride react to form a precipitate of Barium Sulfate and aqueous Hydrochloric acid

c) Dinitrogen trioxide gas reacts with liquid water to produce aqueous Nitrous acid

40) Speeds up a chemical reaction

71)
